3 April 2019

Dear Ms Orgill

The report to follow outlines your results from the Friends and Family Test. This report is based on the feedback from 48 patient questionnaires in March 2019.

In order to enable us to improve our services we would be grateful if you could complete a feedback form using the following link: <http://www.cfepsurveys.co.uk/questionnaires/feedback/default.aspx?psid=231377>

Please contact the office on 01392 927005 or reports@cfepsurveys.co.uk if you require further information about your results.

I hope the report forms a useful basis for reflection on the service provided to patients.

Yours sincerely

CFEP UK Reports Team

Sample patient questionnaire

Frequency and distribution of ratings for the Friends and Family Test question

How likely are you to recommend our GP practice to friends and family if they needed similar care or treatment?

Table 1

Criteria category for scoring	Response scale	Number of responses	Percentage of responses*
Promoters	Extremely likely	18	38%
Passive	Likely	24	51%
Detractors	Neither likely nor unlikely	4	9%
	Unlikely	0	0%
	Extremely unlikely	0	0%
	Don't know	1	2%
Total responses to this question		47	100%

* May not add up to 100% due to rounding

Number of patients who left Q1 blank (but provided other feedback on the questionnaire)	1
Total number of patients providing feedback	48

Graph 1

89% of patients who responded to the survey would be either extremely likely or likely to recommend your practice to friends and family if they needed similar care or treatment.

The sum of the 'Extremely likely' and 'Likely' percentage of responses in Table 1 may not equal the percentage in the grey box above due to rounding.

Of those 47 patients who answered the Friends and Family Test question, 47 (100%), filled out a paper questionnaire and 0 (0%), completed a questionnaire online.

Patient comments

The following comments are from patients who indicated that they were happy for these to be made public.

All comments are included in their entirety but all attempts have been made to remove details which could identify specific patients or practitioners.

Please tell us why you answered as you did in question 1:

- Always had good medical response and care.
- Very friendly reception and doctors.
- Convenient location and friendly service.
- Can 90% make appointment. Friendly staff.
- I find the doctors to be good. Because I've been coming here for many years I have nothing else to compare to - reason for not getting "Extremely likely".
- Friendly nice doctors. Can usually get an appointment when needed.
- I have been a long-term patient of this practice. I have found them to be good and friendly.
- You have looked after me quite well, especially when I've asked for reassurance and needed x-ray for check-up.
- Good service, nice and friendly. Sometimes on communication is complicated.
- Receptionists helpful. Doctors nice. Can be difficult to get timely appointments.
- We are happy with our doctor.
- The doctors always follow up and refer to hospital if necessary.
- Appointments are hard to come by but understand this is out of the surgery's control.
- Great staff and doctors. Sometimes you have to wait two weeks for an appointment.

Please tell us why you answered as you did in question 1:

- Been with John Ryle many years and find all the staff friendly and helpful.
- Helpful, friendly and supportive staff.
- Always well looked after. Pleasant atmosphere.
- This doctors is really good they try to get you to be seen as best as they can.
- Because the treatment I received was good.
- Good waiting times and no problems getting an appointment.
- Found times at the practice have been treated well.
- Not really had conversations about GPs.
- Not happy with service.
- On a number of occasions I've put my repeat prescription in and it's not been done resulting in me going days without medication.
- Fantastic friendly reception team. Doctors are also great at what they do. Been here since being very young and will never leave.
- Long while getting appointments.

Additional information on the Friends and Family Test

The Friends and Family Test (FFT) is a feedback tool that supports the fundamental principle that people who use NHS services should have the opportunity to provide feedback on their experience that can be used to improve services. It is not a traditional survey. It is a continuous feedback loop between patients and practices.

Practices can use the feedback gathered through the FFT to celebrate successes and to support staff to make improvements where the experience of service does not live up to expectations. FFT results are also one useful source of information which can help to inform choice for patients and the public.

More information and guidance about the use of the FFT in the NHS can be found at <http://offlinehbpl.hbpl.co.uk/NewsAttachments/PGH/FFT.pdf> and <http://www.england.nhs.uk/wp-content/uploads/2014/07/fft-imp-guid-14.pdf>.
